

**XIV Urrutia Elejalde Summer School on Economics and Philosophy.
“Experiments in Economics, Experiments in Philosophy”**

Coordinators:

Cristina Bicchieri (UPenn); Jason Dana (UPenn); María Jiménez Buedo (UNED).

Convenor:

Alfonso Dubois (UPV/EHU)

Aims:

Since 1998 the Urrutia Elejalde Foundation has annually organized a Summer School on frontier topics between philosophy and economics and other social sciences, bringing together scholars from all these fields to explore them. The aim of this year Summer School is to explore the potential avenues for collaboration between the growing disciplines of experimental economics and experimental philosophy. Experimental economics has evolved into a thriving subfield, as attested by the number of experimental papers published in leading general economics journals. This growing enthusiasm for experiments in economics has coincided with the revival of philosophical and methodological analyses of causality, which view the controlled experiment as the privileged gate to causal inference. But more importantly, in the last years, a new field known as experimental philosophy has set out to complement or even substitute for pre-theoretical intuitions regarding philosophical themes such as moral dilemmas or rationality. At a moment in which experimental economics is already well-established and experimental philosophy is emerging, this meeting compares their main themes and results.

In collaboration with the Urrutia Elejalde Foundation.

Registration prices: before 31 May: 100 €. From 1 June: 120 €. Academic validity: 30 hours. The organization also offers a number of grants to cover registration fees and/or accommodation expenses. Applications should include a short C.V. E-mail: alumnos@sc.ehu.es

Official language: English.

European activity.

PROGRAMME

July 27

- | | |
|---------|---|
| 9.15 h | Opening Remarks
“Experimental Philosophy meets Experimental Economics”
CRISTINA BICCHIERI.
<i>UPenn.</i> |
| 9.30h | “Experimental versus Conceptual Analysis in Economics and Philosophy”
FRANCESCO GUALA.
<i>Universita di Milano.</i> |
| 10.30h. | Coffee Break |
| 11.00 h | Contributed papers:
Nagatsu , Michiru. University of Tartu. “Preferences, Psychological and Ecological: An Experimental Philosophy of Economics”
